

Mako Rig 2m. 198kg wire. Makos, Bull Sharks, Hammerheads

Mako Shark Rig.

This rig is made from stainless steel 400 pound wire and a 10/0 SHOGUN Stainless Hook.

I use these rigs when fishing for Mako and other sharks.

The way we fish is to berley heavily with minced fish, pilchard cubes and any other bait you don't want. Sometimes you need to leave a trail out for hours before you see a shark, but when you do, a big slab of bait on this hook and you're in business

Made from 198kg breaking strain nylon coated wire.

2m in length

Price: \$13.95
