

## Hoodlum Knife Jig 200grams. Kingfish, Samsons, Snapper

The Hoodlum 200 Knife Jig is designed to reach depths without being excessively heavy. The long thin body is tail heavy so that it slices through the water without tumbling and the darting action on the way down creates a feeding frenzy that entices Kingies, Samsons and Amberjack to strike as the Jig falls.

The ideal deep water jig for light tackle enthusiasts.

These are suitable for jigging big Kings, Sampson Fish, Amberjack, Snapper, Tuna, Bonito and Spanish Mackerel.

Hoodlum 200 Jigs come rigged with a assist 6/0 assist hook.
