

Decoy Solid GP Ring #5 500lb Pkt 12

The Decoy GP Ring is simply the best, most compact and strongest connection to make between a heavy leader and the lure split ring for heavy-duty popping, jigging and casting.

The deceptively strong GP Ring is extremely compact, yet size 3 is a 300lb connection, size 4 400lb and size 5 is 500lb.

The unique teardrop shape allows even the heaviest leader to sit neatly without obstructing the free movement of the ring and the split ring it joins. The rounded edges on the ring make for a cut-free connection and cleaner, faster joining to the split ring.
