

Decoy Split Rings #10H 250lbs Pkt 8

Decoy Split Rings #10 250lbs Pkt 8

Decoy has developed a special wire 'hypower stainless steel' for all its snaps and split rings. This material has properties that allow for super strength and gives longer lasting to its spring steel effect after constant use. 'Hypower' is the trade mark for Decoy snaps and split rings and allows Decoy to make #00 snap (8mm long) to a #11 split ring (300lb breaking strain).

If you want the best 'Link Up With Decoy' because they 'Link Up With Fish'.

LIGHT CLASS

Made from forged hypower stainless steel and finished in double black nickel plates makes these the smallest and strongest split rings in this class. Available in sizes: #0 (15lb), #1 (30lb), #2 (30lb), #3 (40lb)

MEDIUM CLASS

Made from forged hypower stainless steel and finished with an anti-corrosion finish to make it into a strong durable split ring. Available in sizes: #4 (50lb), #5 (60lb), #6 (75lb), #7 (90lb)

HEAVY CLASS

Made from forged hypower stainless steel and finished with an anti-corrosion finish to make it into a strong durable split ring. If you require a serious super strong ring, then you must try our Decoy heavy class. Available in sizes: #8 (150lb), #9 (200lb), #10 (250lb), #11 (300lb)
