

Pakula Hothead® Micro Uzi® Hot Frigate Trolling Lure

The Micro Uzi is a small version of the very successful Pakula Uzi.

The Uzi has been in such high demand since its introduction we have had special skirts made just for this lure. In fact the colour range is even more extensive than those available for our larger lures. This lure has certainly excelled to such an extent many anglers actually stop using it at times because they have to stop every 100 yards to pull in the fish!!

This is a genuine Pakula product designed by expert lure craftsman Peter Pakula.
