

Pakula Sprocket Jet- Paua. LUMO. Hard to Get.

The Pakula Sprocket is the long rigger lure, particularly in the colours Lumo, Express or Dorado.

If you are only ever going to take one piece of advice from us then let it be "Run the Pakula Lumo Sprocket on the long rigger, and leave it there!" Around half of all the successes on Pakula Lures are with this lure in this position. It may not catch fish for a while, but when it starts working nothing else will come close.

Its tight swimming action works in all conditions at any trolling speed. It is totally irresistible.

This new design from Pakula Lures with attractive paua shell & jet holes only make the Pakula Sprocket even more deadly.

Lure length 347mm (13.7").

Colour: LUMO

These lures also feature lumo faces & heads & skirts contain special UV additives.
