

# Pakula Smoking Jo - Fallen Angel. Monster marlin lure

The Pakula Smoking Jo, is our extra large long corner lure. This lure that evolved from a cross between the old Smoking Jo and Warlord. It has an impressive tight continuous action and long turbulent smoke trail.

We have noticed that the statistics on this range of lures known as the Long Shots, have performed particularly well in in blue colour combinations. The exception to that is the Smoking Jo in the colour Kona which has become one of the best producing lure of all time for large Striped Marlin in New Zealand waters.
