

# Shotgun Rigger / Centre Rigger. Complete Tagline Kit

Another new addition to the range of Outriggers from Henderson Australia, the 2.1m Shotgun Rigger.

Designed for mounting directly into your existing rocket launcher this centre rigger requires no mounting or drilling at all. Simply drop it in and connect the snubber cord and its ready for use.

It is a stiff, 2.1m long 2 piece pole with "Bent Butt" style base, designed to fit straight into an existing rod holder or rocket launcher. Please note if the rod holders in your rocket launcher curve in at the bottom then you may need to drill one hole in your rod holder and place a single 5mm bolt. Diagram available if you need assistance with this.

Bent butt base is made from Solid 316 Stainless Steel. Pole is 2pc fibreglass. Sold as a SINGLE rigger and comes with all fittings including cord, release clip, snubber - tensioner, eye bolts, tagline weight and stoppers.

**Price: \$259.95**
