

## Aftco Roller Troller Outrigger Clips - Pair

AFTCO Roller Troller Outrigger Clips help you position a trolling lure from an outrigger by simply reeling in or letting out line right through the clip. The line rides safely on a roller that features silky-smooth action.

The clip's micro-tension adjustment is positive yet sensitive over a wide range of settings. Once the tension is set, our precision-engineered latching system releases your line repeatedly at exactly the same pull to assure fewer missed strikes and less broken line and gear.

Suitable for light to heavy tackle fishing.

### About Aftco

#### WHO WE ARE

AMERICAN FISHING TACKLE COMPANY - ANY FISH, ANY WATER

Family owned and operated, the American Fishing Tackle Company (AFTCO) represents unparalleled quality, performance and reliability when it counts most. Worn across the globe, AFTCO's [fishing clothing](#) is designed to handle the harshest elements. Whether you're an elite professional bass angler looking to stay dry in a late fall downpour or an offshore weekend warrior seeking protection from the sun's harmful UV

rays, AFTCO keeps you fishing comfortably. AFTCO products are field tested from our Southern California offices where many of our core [saltwater fishing tackle](#) products are still proudly handcrafted and manufactured in our U.S.-based machine shop.

## WHAT WE STAND FOR

### INNOVATION AND CONSERVATION SINCE 1958

AFTCO reflects a legacy of firsts. From our former company Chairman [Milt Shedd's](#) pioneering conservation achievements, to the invention of the roller guide and the introduction of the world's first pair of true fishing shorts, AFTCO provides conservation leadership & innovative products proven to deliver performance on the water. Our passion for the outdoors goes beyond our product offering because of an unwavering commitment to help protect our fishing resources and angler rights. Through our **10% Pledge to Protect and Conserve**, your purchase of any AFTCO product directly supports conservation initiatives.
