

Trolling Flasher boards - Gamefish Teaser

Trolling Flasher boards are traditionally a teaser used for trout and salmon, but recently have gained a big reputation as a highly effective teaser for salt water gamefish.

In your marlin spread, while trolling baits around fads or slow trolling for macks these Trolling flasher boards are bloody deadly.

They come rigged as a set of 3. The set consists of 2 x 8 inch flasher boards and 1 x 12 inch flasher board.

A great addition to daisy chains or just run by themselves.
