

Dredge Trolling Weight. 16oz. Lumo

Trolling weights are a must have to run in front of your dredge or strip teaser. They can also be used for getting live baits and other trolling lures down deep.

Smaller 12 to 18 inch dredges are best suited to a 16oz weight, for dredges 24 to 36 inches we would suggest out 24oz trolling weights.

These dredge trolling weights are painted in glow paint for extra attraction.

Size 16oz (450gms)

Price: ~~\$18.95~~\$10.00
