Stickface Stalker IV includes Teaser bag + Towrope

Stickface Stalker IV Big Game Fishing Teaser. Now with Stainless Steel side Mirrors, Metallic Paint and clear top coat for extra protection. Each Stickface Stalker game fishing teaser also has a rattle built into it designed to sound like panicking baitfish.

"Attract Marlin and Tuna like never before".

These teasers have been designed for one purpose. To get big game fish into your lure spread!

We have weighted these teasers so they will perform when towing livebaits, as well as high speed trolling up to 10 knots. They are designed to sink so they actually track deeper away from the bubbles and disturbance, this gives them an edge of most teaser designs that sitting in the wash are are hardly seen by fish.

This teaser is 45cm in length and weighs just over 1.2kg. It can be trolled between 1-12 knots in any sea condition. All fittings are made of Stainless Steel.

Guaranteed to raise Marlin and Tuna!

Also includes Teaser Bag and 10m Towrope.
